UNIVERSITY OF DAYTON PHILOSOPHER  
TO MODERATE DISCUSSION ON COMPUTER ETHICS

## *News Release*

DAYTON, Ohio, May 2, 1990--Raymond Herbenick, a professor of philosophy at the University of Dayton, will moderate a panel discussion of several Dayton-area business leaders on "Ethics in Computing" on Thursday, May 17, at 8 p.m. at the Engineers Club in Dayton. The discussion is open to the public.

The program, to be modeled after the well-known "Ethics in America" program which aired on public television several years ago, will ask participants to comment on a case study involving ethical situations employees and managers face in everyday work life. Herbenick teaches a course annually at the University of Dayton on information ethics.

Questionnaires will be completed by participants after the program and tabulated and reported at a later date. The discussion also will be videotaped for later distribution to colleges, universities and businesses.

Panelists for the discussion include James K. Hull, assistant vice president at NCR; Jack W. Simpson, president of Mead Data Central; Col. George T. Arola, assistant chief of staff of the Aeronautical Systems Division's communication computer systems office at Wright-Patterson Air Force Base; Mary Kay Allen, president of Intellogistics Inc.; Patricia Knoop, deputy general manager of SofTech Inc.; Faye H. Jendrian, project manager at TRW Defense Systems Group; Adam M. Lutynski, general counsel and secretary at Reynolds and Reynolds; and Eric T. Wagner, president of Culverin Corporation.

The program, which is sponsored by the Engineers Club and the Dayton chapters of the Association for Computing Machinery and the Institute of Electrical and Electronic Engineers, begins with a reception at 5:30 p.m., followed by dinner at 6:30 p.m. Cost for those attending dinner and the discussion is \$18 or \$5 for those attending the discussion only. Reservations must be made by Monday, May 14, by calling the Engineers Club at (513) 228-2148.
